

Filing a Hotline Report

Quick Reference Card

What is the Hotline and When is it Used?

KPMG LLP's Ethics and Compliance Hotline is a reporting mechanism that facilitates reporting of possible illegal, unethical, or improper conduct as outlined in KPMG's Code of Conduct. The Ethics and Compliance Hotline is available 24 hours a day, seven days a week, when:

- You're uncomfortable using the firm's normal channels of communication (e.g., reporting the matter to a PML, an engagement partner or Human Resources); OR
- You've used other channels to raise concerns but have found them to be ineffective in resolving the issue; OR
- You want to report a concern anonymously.

KPMG's Hotline is not a 911 or Emergency Service: Do not use the Hotline to report events presenting an immediate threat to life or property. Reports submitted through this service may not receive an immediate response. **If you require emergency assistance, please dial 911 or contact your local authorities.**

The hotline is administered by an independent, third-party provider and is available to firm partners and employees, as well as clients, contractors, vendors and others in a business relationship with KPMG, including other member firms whose partners and employees may be working with the U.S. firm on engagements with U.S.- based clients.

When reporting via the Ethics and Compliance Hotline, whether via the Web or the phone, you may choose to identify yourself, which often facilitates the firm's ability to fully address your report.

KPMG has a policy of confidentiality, and will protect your identity to the extent permitted by law and professional standards, and consistent with the firm's need to conduct a thorough investigation, if warranted, or to take other appropriate action.

KPMG has a strict policy of non-retaliation for good faith reporting by firm personnel, even if sufficient evidence is not found to substantiate the concern.

- If you file a Hotline report by phone, the intake specialist will summarize the information you provide and will read the case summary back to you. You will be asked to **confirm the accuracy** of what has been captured and to change or clarify any aspect of the report. What Happens After Filing a Report?

- The **Chief Compliance Officer** receives notification from the Hotline provider that a new report has been filed, and determines which resources should be used to investigate.
- KPMG will post an **initial response** to a new report within 3-5 business days of the report's filing date.
- You will be able to **check the status** of the investigation online or by phone as well as **add information or answer questions** using your report key and password.
- Anonymous reporters are encouraged to **call or log in to their report on a regular basis** to ensure an open line of communication during the investigation, as this is the only way the investigation team can communicate with an anonymous reporter.
- A **notification** will be posted in the case management database **when the case has closed**. Confidentiality policies prevent disclosure of detailed information about the investigation or disciplinary action.
- You may be included in the firm's **retaliation monitoring program**, which monitors for possible signs of retaliation against reporters and witnesses for their good-faith reporting and participation in an investigation. If you report anonymously, it is not possible for you to be monitored by this program.
