

What is EthicsPoint Reporting System?

EthicsPoint is committed to driving and defining best practices for integrated Governance, Risk, and Compliance (GRC). Serving over 1,200 active clients and over six million stakeholders worldwide, EthicsPoint has created an effective reporting system that is instrumental in managing enterprise risk. The EthicsPoint Reporting System provides individuals at all levels in the organization with the appropriate tools and information for reporting, investigating, and resolving issues in a timely, cost-efficient manner.

What to Report

Situations, events or actions by individuals or groups that you believe carry a negative impact on company or shareholder well-being or are detrimental to morale, productivity, or personal safety. Frivolous or unfounded reports do not help foster a positive workplace. Specific categories for reporting are provided

If you are uncertain if a situation violates company policy, is illegal or constitutes harassment or discrimination, please use EthicsPoint to obtain clarification. We would much rather have you ask than let potential problems go unchecked. However, EthicsPoint should not be used for immediate threats to life or property. These types of reports should be directed to 911.
