

MESSAGE FROM TOM SALMON
CHIEF EXECUTIVE OFFICER
September 1, 2017

Dear Fellow Employee:

I am pleased to present an updated Code of Business Ethics for Berry Global. This Code of Business Ethics is the cornerstone of our Ethics Program and is designed to support our mission, values, and behaviors, while assisting you in understanding and complying with the ethical standards and business conduct the Company expects from its employees, officers, and directors.

It is important that you take the time to read and fully understand the Code. Berry established it as part of our commitment to conducting business in accordance with the highest ethical, moral, and legal standards and as a way of ensuring that the Company provides a workplace that is respectful and free from all forms of unlawful discrimination and harassment. As such, compliance with the Code of Ethics is the responsibility of every Berry employee and is, in fact, a condition of employment. If you have any question about any topic covered by the Code, please seek the advice of your immediate supervisor, department manager, your site human resources representative, or the Company's Compliance Coordinator.

Violations of the Code can expose you and the Company to criminal prosecution. In addition, violation of the Code may result in disciplinary action, up to and including termination. Please understand that every employee is responsible to report any actual or suspected violation of the Code. With reporting rules varying around the world, consult your local human resources representative for applicable standards at your location and as overviewed in this Policy.

I know we each value Berry's positive culture and I ask that we each continue to operate in a manner that supports this Code and helps us maintain a fair, safe, and pleasant working environment. Thank you in advance for your continued dedication, as we go forward always advancing, united as One Berry.

Role of Ethics & Compliance

The purpose of the Ethics & Compliance Program ("Program") of the Company is to implement a program that trains and emphasizes the professional proficiency of Berry Personnel in order to instill a corporate culture of ethical behavior that avoids regulatory agency enforcement action, civil penalties, or criminal sanctions. The Code of Business Ethics is the basis of the Program.

Every Berry Global Group, Inc. board member, executive, manager, and employee is responsible and accountable for performing his or her function in compliance with applicable laws and regulations and this Program.

For more information on this Program, please refer to the program document located on OneBerry under Corporate Ethics and Compliance (<http://oneberry.berryplastics.com/cec/Policies/Forms/AllItems.aspx?RootFolder=%2Fcec%2FPolicies%2FEthics%20and%20Compliance%20Program&FolderCTID=0x0120004CE415671DE23C44959636B94CC12B3A&View=%7B2313BC40%2D845C%2D4646%2DBEEC%2D51E0D0CA7773%7D>).

Values

Partnerships: We recognize the importance of strong, sustainable partnerships throughout all aspects of our business – we view our Berry Personnel, customers, suppliers, and communities as our partners.

Excellence: We pursue excellence in all that we do by optimizing our processes, enhancing our sustainability initiatives, and by providing the highest quality products and services to our customers. We believe in continuous training and development for our Berry Personnel so that we can deliver excellence to our customers.

Growth: Strategic growth is imperative for our business. Growth comes in many forms – financial growth, customer growth, employee growth and development, product growth and innovation, and the global growth of our Company.

Safety: Our number one value. We relentlessly pursue safety in all we do. We maintain high standards to ensure our facilities are safe and environmentally conscious.

Policy & Purpose

The policy of Berry Global Group, Inc. and its subsidiaries (hereinafter collectively referred to as "Berry," "Berry Global" or the "Company") is to conduct its business in accordance with the highest ethical, moral, and legal standards, efficiently, in good faith, with due care, and in the best interests of Berry, Berry Personnel, and

shareholders. Each member of Berry Global's Board of Directors, officer, and employee (collectively and interchangeably referred to as "employee") has a primary duty to act at all times to uphold these standards and to act with honesty, integrity and fairness, and without actual or apparent conflict of interest.

Berry's policy is to comply with all applicable federal, state, and local laws and regulations, the applicable laws and regulations of any foreign jurisdictions where the Company operates, the applicable rules and requirements of the New York Stock Exchange, and in a manner that will reflect a high standard of ethics. If an employee has any questions concerning the application or interpretation of a law or regulation, the employee should first seek the advice of his or her immediate supervisor or department head and thereafter the Ethics Committee, which will make a determination whether to consult Company legal counsel and/or the Audit Committee.

The purpose of this Code is to establish management guidelines for policies and procedures in the operation of Berry Global. We encourage you to become familiar with the information contained in this Code and related policies. If questions arise that are not answered in the following pages, do not hesitate to ask your Supervisor, Department Manager, Human Resources (HR) Manager, or the other resources referenced at the end of this document.

Responsibility

The Berry Global Code of Business Ethics (the "Code") is not intended to be exhaustive and cannot address every possible situation that may arise, but all Berry Personnel are expected to conduct themselves in the performance of their jobs in a manner consistent with the highest ethical, moral, and legal standards. **Compliance with all Company policy and the Code is the responsibility of each employee of Berry and is, in fact, a condition of employment.** It is the responsibility of all Berry Personnel to regularly review their knowledge and understanding of this Code and to uphold these standards in their daily business conduct.

All Berry Personnel must accept responsibility for maintaining and enhancing Berry Global's reputation for integrity and fairness in its business dealings. In the sections which follow, principles, definitions, and guidelines are set forth concerning major areas of attention.

Additional Responsibilities of Leadership

If you are in a leadership position, you are also expected to meet the following additional responsibilities:

- Lead by example.
- Help create a work environment that focuses on building relationships, recognizes effort, and values mutual respect and open communication.
- Be a resource for Berry Personnel. Communicate to Berry Personnel about

how the Code and Company policies apply to their daily work.

- Be proactive. Look for opportunities to discuss and address ethics and challenging situations with Berry Personnel.
- Create an environment where everyone feels comfortable asking questions about and reporting potential violations of the Code and Company policies.
- Never ask another or pressure anyone to do something that you would be prohibited from doing yourself.

Q: If I report a concern, will I get in trouble?

A: No. You will not get into trouble for reporting misconduct concerns.

Guidelines for decision making

- Is it illegal?
- How will you feel about the decision?
- How will others feel?
- How would you feel if the world knew about the decision?
- Does it make sense?
- Is it fair?
- Will management approve?

Q: My manager asked me to do something I believe violates our Code. What should I do?

A: Report the incident to someone else in management, HR, Legal, the Compliance Coordinator, the Ethics Committee, or call the Berry Alertline. No one – not even your manager – has the authority to tell you to do something illegal or unethical.

Anti-Trust & Free-Competition

Antitrust laws exist to preserve free and competitive markets. Berry embraces a free and open marketplace and, while we will compete vigorously, we are committed to complying with competition laws, also called antitrust laws, in every country where we do business. Berry Personnel will not (1) discuss or enter into an agreement or understanding – whether written, spoken, or otherwise – that relates to a competitive matter; (2) participate in purchasing agreements that restrict the resale price of our buyers; or (3) discriminate in prices, terms, and services offered to similarly situated customers purchasing similar goods in like quantities on similar terms. Berry Personnel will comply with antitrust laws. Violations can result in costly damage to the Company's reputation, as well as criminal and civil fines and penalties for the Company and its Berry Personnel. For additional information, see the Company's Antitrust Policy and Guideline, available on OneBerry under Corporate Ethics and Compliance (<http://oneberry.berryplastics.com/cec/Policies/Anti-Trust%20Policy.11-5-14.pdf>), or contact the legal department.

Q: What if I meet up with a competitor at a conference and we discuss what we believe would be a fair market price for a part we both supply? Neither one of us put anything in writing. Would this be a competition concern?

A: Yes. It is a conversation that should be avoided. You should immediately share your discussion with the legal department. "Agreeing" includes: stated or implied, formal or informal, oral or written understandings.

Anticorruption

It is the policy of Berry Global to conduct its business in accordance with the highest ethical, moral and legal standards, efficiently, in good faith, with due care, and in the best interests of Berry Global.

Accordingly, Berry Global Personnel (including the immediate family of Berry Global Personnel), and any third-party acting on Berry Global's behalf, are prohibited from promising, offering, giving, or authorizing – directly or indirectly – a bribe or anything of value to or from anyone, including any Government Official, private person or employee of a business entity, to improperly influence any act/decision of such person in order to obtain/retain business, or secure a business advantage, for Berry Global. This Policy also prohibits Berry Global Personnel, and

third-parties acting on Berry Global's behalf, from receiving bribes from third parties (<http://oneberry.berryplastics.com/cec/Policies/Anti-Bribery%20and%20Anti-Corruption%20Policy%20-May%203%2C%202016.pdf>).

Compliance with Laws & Reporting Offenses

Berry Personnel must comply with all applicable laws, rules, and regulations that govern Berry's business conduct. There is no circumstance in which criminal conduct by a Berry employee or agent will be considered to be within the scope of his or her employment or authority. Because the distinction between criminal conduct and conduct that may violate a civil statute is not always clear, if an employee knows of any act or activity by another employee or agent that violates, or that appears to violate, any provision of the Code, the employee is encouraged to report such conduct. Reports can be made through established reporting relationships or through the confidential reporting procedures described below.

If an employee has any questions or concerns about compliance with the subjects described in this Code or is unsure of the "right thing" to do, he or she should talk with his or her supervisor, manager, human resources manager or any Berry executive. If these alternatives are not practical or do not adequately address such employee's questions or concerns, the employee should contact any member of the Ethics Committee to report his or her concerns. The report to the Ethics Committee will be investigated and, if verified, appropriate disciplinary action up to and including termination will be taken against any employee who has violated the Code. Berry Personnel are expected to be truthful in making complaints and participating in investigations.

If an employee outside of the European Union prefers to remain anonymous in reporting his or her concerns, Berry has established an anonymous reporting procedure through a third-party provider. Any employee can make a report by calling one of the alertline numbers on page five (5) or by going to <https://secure.ethicspoint.com/domain/media/en/gui/39248/index.html>

No retribution or retaliation shall be taken against any Berry employee who reports a violation of the Code based on a belief that a Berry employee or agent has violated, or is about to violate, the Code. Any Berry employee who takes (or attempts to take) retaliatory action against an employee who reports a violation of this Code shall be subject to appropriate disciplinary action, including termination of employment.

Conflicts of Interest

Berry Personnel of Berry Global have a duty to be free from the influence of any conflicting interest when they represent Berry. They are expected to deal with customers, suppliers, vendors, and all others doing business with Berry on the basis of what is in the best interests of Berry without favor or preference based on

personal considerations. Berry respects Berry Personnel rights of privacy in both their personal and financial affairs. However, these rights must be balanced against the interests of Berry in maintaining its reputation for the highest standards of business ethics and conduct. Berry Personnel are expected to avoid situations in which their personal and financial affairs may be, or have the appearance of being, in conflict with the employee's obligation to always act in the best interests of Berry without being influenced by personal considerations.

Except as described below, an employee shall not have a material financial interest in, be employed by, consult with, or be a director or an official in an equivalent position of, any person who competes with Berry or supplies products or provides services to, or is a customer of Berry without disclosing such relationship to the Ethics Committee and, if required by the Ethics Committee, receiving written permission from the CEO to continue such relationship, except an employee may own fewer than 5% of the outstanding shares or other securities of a company whose shares or other securities are registered under the Securities Exchange Act of 1934. If there are no reasonable alternative sources for the products or services required by Berry other than from a person in which an employee has a financial or personal interest, the employee's superior may authorize Berry to do business with such person on a competitive basis and shall notify the Ethics Committee of the circumstances of such authorization.

If an employee selects a supplier to Berry that employs a friend or relative with whom the employee has a close personal relationship and who is a substantial owner of the supplier or will derive direct economic benefit from the transaction, the employee shall inform the Ethics Committee of such relationship and take extraordinary care to ensure that such selection is based solely on competitive quality, price, and service. To avoid the appearance of favoritism or a conflict of interest, whenever practical, the responsibility for the terms and conditions of the transaction may be delegated to another Berry employee.

Q: My spouse works in the sales department of one of Berry's suppliers. Do I need to report this to my supervisor?

A: Yes, if you are in a position that would influence the business Berry directs to this supplier. In most cases, no additional action is required by the employee or the Company to avoid the appearance of a conflict of interest.

Officers and non-Board of Director Berry Personnel are prohibited from (1) taking for themselves opportunities that properly belong to the Company or are discovered through the use of its property, information, or position; or (2) using the Company's property, information or position for personal gain. Berry Personnel owe a duty to

the Company to advance its legitimate interests when the opportunity to do so arises.

Data Privacy

Berry takes our obligations regarding privacy and data protection seriously. Berry Personnel shall respect the intellectual property and confidential information of third parties. Each employee has an obligation to comply with Berry's policies, contractual obligations, and all applicable privacy and data protection laws. Information shall only be collected for legitimate business purposes and care shall be taken to secure it. Additional information on Berry's Data Privacy Policy in relation to Berry's website can be found by clicking the Privacy link located within the Policies menu near the bottom of the page at www.berryglobal.com.

Fair Dealing

Berry Personnel should make every effort to deal fairly with Berry's customers, suppliers, competitors, other Berry Personnel, and shareholders and should not take unfair advantage of anyone through manipulation, concealment, abuse of privileged information, misrepresentation of material acts, or any unfair-dealing practice.

Financial & Accounting Practices and Controls

Every employee shall report any knowledge or suspicion of instances where (1) a transaction is about to be, or has been, executed on behalf of Berry by an employee or agent of Berry that was not in accordance with management's specific or general authorization, with respect to that specific category of transaction, as specified in the system of accounting controls of Berry; (2) a transaction was not recorded on the books, records and accounts, the result of which would not permit Berry's financial statements to be prepared in conformity with generally accepted accounting principles and would not maintain the accountability of Berry's assets; (3) access to Berry's assets was given to, or taken by, an employee or agent of Berry that was not in accordance with management's general or specific authorization as specified in the system of internal accounting controls of Berry; or (4) the recorded accountability for certain Berry assets is not compared with the existing assets at such intervals as specified in the system of internal accounting controls of Berry, or appropriate entries were not made on the books, records, and accounts of Berry, if such comparisons indicate differences.

Any employee should report any knowledge or suspicion of any instance where Berry or any individual acting on behalf of Berry maintains a bank account for or on behalf of Berry in a name other than Berry's name, or of a corporate bank account whose existence is not known to the appropriate financial officers of Berry, or is not reflected in the books and records of Berry.

An employee shall give full and accurate information in response to any inquiry by an internal auditor, or accountant, or a representative of Berry's independent accountant, and shall provide such auditors and accountants all records and documents requested by them.

Gifts & Entertainment

Gifts offered to or exchanged by employees of different companies vary greatly. They can range from widely distributed advertising novelties of nominal value, which an employee may give or accept under appropriate circumstances, to bribes, which absolutely may not be given or accepted. No employee or member of an employee's immediate family may give, request, or accept from a supplier, government agency or any other organization anything (including money or gifts) that could reasonably be construed to influence the Company's business relationships. Gifts include not only cash and material goods, but also services, promotional premiums or discounts on personal purchases of goods and services. In addition, no Berry Personnel shall give, solicit or accept a loan from any Person or from any financial institution doing, or seeking to do, business with Berry, unless such loan is made at the prevailing interest rates and terms for individual borrowers similarly situated. Berry Personnel shall not use their positions as Berry employees for personal gain. Access the Gifts and Entertainment Policy on OneBerry, <http://oneberry.berryplastics.com/cec/Policies/Gifts%20and%20Entertainment%20Policy.pdf>.

U.S. Federal law prohibits the offer, promise, or gift of anything of value to an employee, agent, or official of the federal government if made with intent to influence such individual within his or her area of responsibility. A number of state and other governmental subdivisions have similar laws and regulations. In order to avoid any appearance of impropriety or illegality, Berry has adopted a policy of prohibiting entertainment of, and gifts, gratuities, and favors to, federal, state and local government employees, agents, or officials.

Inside Information & Securities Trading

In the course of business, Berry Personnel may become aware of material nonpublic information regarding the business, operations or securities of Berry Global, which is information that would reasonably affect an investor's decision to buy, sell or hold securities and that has not been disclosed generally to the public. The United States securities laws prohibit the trading of securities on the basis of such nonpublic information (often called "inside information"). In addition, Berry Personnel are prohibited from recommending, "tipping" or suggesting that anyone else buy or sell stock or other securities of the Company or other companies with which Berry Global has significant relationships on the basis of material nonpublic information.

An employee shall not acquire the securities or units of ownership of a Person that the employee knows is the object of or involved in a Prospective Transaction

without first disclosing such acquisition to the Ethics Committee, and each employee must understand that such activity may be a violation of state and federal securities laws. If an employee has the authority to recommend or decide whether Berry shall make the Prospective Transaction, or occupies a position with Berry involving the evaluation of the Prospective Transaction in which he or she has a financial or personal interest, the employee shall promptly notify the Ethics Committee of his or her financial or personal interest.

An employee shall not use or disclose any confidential or nonpublic information about Berry's intention to acquire, invest or enter into business relationships with any unaffiliated third party, except for disclosure to those Berry Personnel who have the need to know in order to perform their duties; nor shall an employee disclose trade secrets, proprietary product information, or confidential financial data of Berry to any person, other than authorized Berry Personnel or as required by law, irrespective of whether knowledge of such information and data is acquired as a result of his or her duties and responsibilities or is otherwise acquired.

All Covered Persons must abide by Berry's Policy Statement for Securities Trading by Company Personnel, as amended from time to time and posted on the Company's [intranet site](http://oneberry.berryplastics.com/cec/Policies/Amended%20and%20Restated%20Securities%20Trading%20Policy%20Statement%20(Final%208-4-14).pdf) ([http://oneberry.berryplastics.com/cec/Policies/Amended%20and%20Restated%20Securities Trading Policy Statement%20\(Final%208-4-14\).pdf](http://oneberry.berryplastics.com/cec/Policies/Amended%20and%20Restated%20Securities%20Trading%20Policy%20Statement%20(Final%208-4-14).pdf)). Any specific questions surrounding interpretation of the policy should be directed to Berry's General Counsel.

Q: I am aware of a deal that Berry will soon be announcing. I tell my friend about it and he buys stock based on this information. Is this considered insider trading?

A: Yes. The rules on "inside" information apply if you buy or sell stock or if you provide information to someone who buys or sells stock. This would be a violation of federal securities laws and both you and your friend could be charged.

Protection & Personal Use of Berry Resources

Berry Personnel shall not use or allow others to use funds, proprietary business and technical information of the Company (or of third parties in the Company's possession), Berry Personnel, facilities, materials or equipment of Berry for personal purposes that are unrelated to, or not intended to further, the businesses of Berry, unless prior approval is obtained from a manager (or such manager's designee) who is accountable and responsible for the Berry property proposed to be used. Berry Personnel shall protect such resources against theft, carelessness and waste, and ensure their efficient use.

Disciplinary Action

Compliance with this Code is a condition of employment with the Company. Berry will use disciplinary measures, if necessary, to enforce the provisions of this Code.

Berry Personnel who violate the provisions of this Code, fail to report violations of the Code, or fail to fully cooperate in any investigation of suspected violations of the Code will be subject to appropriate disciplinary action. Disciplinary action may include, but is not limited to, legal prosecution, restitution of any gain obtained by violating the Code, verbal or written warning, probation, suspension or termination, or any combination thereof, depending upon the severity of the violation.

Discrimination, Harassment & Non-retaliation

Berry is committed to providing a workplace that is respectful and free from all forms of unlawful discrimination and harassment. The Company's commitment to fairness and mutual respect precludes discrimination and harassment of Berry Personnel, candidates for employment, and Berry's suppliers and customers. Berry expects that all relationships among persons employed by or conducting business on behalf of Berry are business-like and free of bias, prejudice, and harassment.

Harassment (including sexual harassment and harassment based on a legally protected characteristic) occurs when unwelcome conduct creates a hostile or offensive work environment or is implied to be a factor in employment or advancement decisions. Berry does not tolerate and expressly prohibits, discrimination, harassing actions or comments, inappropriate physical contact, sexual advances, or any other conduct that is intimidating or otherwise offensive or hostile. Incidents of harassment must be reported immediately to a supervisor and/or Human Resources, as described in the Berry Global Employee Handbook.

Berry prohibits any actual or attempted reprisals or retaliation against an employee who raises a concern that this Policy has been violated. The Company takes all allegations of discrimination, harassment, and retaliation very seriously and is firmly committed to ensuring a workplace free of those discriminatory activities. Anyone engaging in discrimination, harassment, or retaliation is subject to disciplinary action up to and including termination. Berry Personnel are expected to be truthful in making complaints and participating in investigations.

Employment Terms

Berry Personnel of the Company without an employee agreement are at-will employees. This means that either the employee or the Company may end the employment relationship at any time, for any reason or no reason, with or without notice. No person, except an authorized executive of the Company, has the

authority to enter into any employment agreement, and this agreement must be in writing signed by both an authorized executive of the Company and the employee. Nothing anywhere in this Code alters the at-will nature of this employment relationship.
