## About EthicsPoint

### What is EthicsPoint?

EthicsPoint is a comprehensive and confidential reporting tool to assist management and employees to work together to address fraud, abuse, and other misconduct in the workplace, all while cultivating a positive work environment.

### Why do we need a system like EthicsPoint?

- By creating open channels of communication, we promote a positive work environment and maximize productivity.
- Publicly traded companies are required by law to have an anonymous reporting vehicle to address accounting and auditing fraud directly to the audit committee.
- An effective reporting system enhances a culture of integrity, transparency, and ethical decision-making.

# Reporting – General

**May I report using either the Internet or the telephone?**

Yes. With EthicsPoint, you have the ability to file a confidential, anonymous report via either the telephone or the Internet.

**What type of situations should I report?**

The EthicsPoint system is designed for you to report any wrong-doing, violation of policy of policy or law, unethical behavior, or other concern you may have.

**If I see a violation, shouldn't I just report it to my manager, or human resources and let them deal with it?**

Ideally, you would bring to your manager, or other member of our administration. Nevertheless, we recognize that there may be circumstances when you are not comfortable reporting issue in this manner. It is for such circumstances that we have partnered with EthicsPoint. We would rather you report anonymously than keep the information to yourself.

**Does management really want me to report?**

We certainly do. Your reporting may allow us to minimize the adverse impact on the institution of wrong or illegal behavior.

**Where do these reports go? Who can access them?**

Reports are entered directly on the EthicsPoint secure server to prevent any possible breach in security. EthicsPoint makes these reports available only to the President unless the President is the focus of a complaint, in which case EthicsPoint makes the report available only to the Chair of the Board of Trustees. The President and the Chair of the Board have pledged to keep reports in the utmost confidence.

# Reporting Security & Confidentiality

**It is my understanding that any report I send from a company computer generates a server log that shows every web-site that my PC connects with, and won't this log identify me as a report originator?**

EthicsPoint does not generate or maintain any internal connection logs with IP addresses, so no information linking your PC to EthicsPoint is available. In fact, EthicsPoint is contractually committed not to pursue a reporter's identity.

If you feel uncomfortable making a report on your work PC, you have the option of using a PC outside our work environment (such as one located at an Internet café, at a friend's house, etc.) through the EthicsPoint secure website. Many people choose this option, as EthicsPoint's data shows that fewer than 12% of reports are generated during business hours.

**Can I file a report from home and still remain anonymous?**

A report from home, a neighbor's computer, or any Internet portal will remain secure and anonymous. An Internet portal never identifies a visitor by screen name and the EthicsPoint system strips away Internet addresses so that anonymity is totally maintained. Plus, EthicsPoint is contractually committed not to pursue a reporter's identity.

**I am concerned that the information I provide EthicsPoint will ultimately reveal my identity. How can you assure me that will not happen?**

The EthicsPoint system is designed to protect your anonymity. However, if you wish to remain anonymous, you - as a reporting party - need to ensure that the body of the report does not reveal your identity by accident. For example, "From my cube next to Jan Smith..." or "In my 33 years...".

**Is the telephone toll-free hot line confidential and anonymous too?**

Yes. You will be asked to provide the same information that you would provide in an Internet-based report and an interviewer will type your responses into the EthicsPoint Web site. These reports have the same security and confidentiality measures applied to them during delivery.

**What if I want to be identified with my report?**

There is a section in the report for identifying yourself, if you wish.

## Tips & Best Practices

**I am aware of some individuals involved with unethical conduct, but it doesn't affect me. Why should I bother reporting it?**

All unethical conduct, at any level, ultimately hurts the institution all associated with it. We all bear a duty to ourselves and the school to report it.

**I am not sure if what I have observed or heard is a violation of company policy, or involves unethical conduct, but it just does not look right to me. What should I do?**

File a report. EthicsPoint can help you prepare and file your report so it can be properly understood. We'd rather you report a situation that turns out to be harmless than let possible unethical behavior go unchecked because you weren't sure.

**What if my boss or other managers are involved in a violation? Won't they get the report and start a cover-up?**

The EthicsPoint system and report distribution are designed so that implicated parties are not notified or granted access to reports in which they have been named.

**What if I remember something important about the incident after I file the report? Or what if the company has further questions for me concerning my report?**

When you file a report at the EthicsPoint Web site or through the EthicsPoint Call Center, you receive a unique user name and are asked to choose a password. You can return to the EthicsPoint system again either by Internet or telephone and access the original report to add more detail or answer questions posed by a company representative and add further information that will help resolve open issues. We strongly suggest that you return to the site in the time specified to answer company questions. You and the company now have entered into an "anonymous dialogue," where situations are not only identified, but can also be resolved, no matter how complex.

**Are these follow-ups on reports as secure as the first one?**

All EthicsPoint correspondences are held in the same strict confidence as the initial report, continuing under the umbrella of anonymity.

**Can I still file a report if I don't have access to the Internet?**

You can file an EthicsPoint report from any computer that can access the Internet. You can file from home. Many public locations, including the public library, have Internet computers. If you don't have access to or are uncomfortable using a computer, you can call the EthicsPoint toll-free hotline, which is available 24 hours a day, 365 days a year.
