About EthicsPoint

What is EthicsPoint?

EthicsPoint is a comprehensive and confidential reporting tool created to assist management and employees to work together in addressing fraud, abuse, and other misconduct in the workplace, all while cultivating a positive work environment.

Why do we need a system like EthicsPoint?

- We believe that our employees are our most important asset. By creating open channels of communication, we can promote a positive work environment and maximize productivity.
- An effective reporting system will augment our other efforts to foster a culture of integrity and ethical decision-making.

Reporting – General

May I report using either the Internet or the telephone?

Yes. With EthicsPoint, you have the ability to file a confidential, anonymous report via either the telephone or the Internet.

What type of situations should I report?

The EthicsPoint system is designed for employees to report any violation of our stated Code of Conduct.

If I see a violation, shouldn't I just report it to my manager, or human resources and let them deal with it?

When you observe some behavior that you believe violates our code of conduct, we expect you to report it. Ideally, you should bring any concerns forward to your direct manager, or other member of our management team. We recognize, however, that there may be circumstances when you are not comfortable reporting the issue in this manner. It is for such circumstances that we have partnered with EthicsPoint. We would rather you report anonymously than keep the information to yourself.

Why should I report what I know? What's in it for me?

We all have the right to work in a positive environment and with that right comes the responsibility of acting in an ethical manner and letting the appropriate people know if someone is not acting appropriately. By working together, we can maintain a healthy and productive environment. Corporate misconduct can threaten the livelihood of an entire company.

Does management really want me to report?

We certainly do. In fact, we *need* you to report. You know what is going on in our company - both good and bad. You may have initial knowledge of an activity that may be cause for concern. Your reporting can minimize the potential negative impact on the company and our people.

Where do these reports go? Who can access them?

Reports are entered directly on the EthicsPoint secure server to prevent any possible breach in security. EthicsPoint makes these reports available only to specific individuals within the company who are charged with evaluating the report, based on the type of violation and location of the incident. Each of these report recipients has had training in keeping these reports in the utmost confidence.

Reporting Security & Confidentiality

Can I file a report from home and still remain anonymous?

A report from home, a neighbor's computer, or any Internet portal will remain secure and anonymous. An Internet portal never identifies a visitor by screen name and the EthicsPoint system strips away Internet addresses so that anonymity is totally maintained. Plus, EthicsPoint is contractually committed not to pursue a reporter's identity.

Is the telephone toll-free hot line confidential and anonymous too?

Yes. You will be asked to provide the same information that you would provide in an Web site. These reports have the same security and confidentiality measures applied to them during delivery.

What if I want to be identified with my report?

There is a section in the report for identifying yourself, if you wish.

Tips & Best Practices

What if I remember something important about the incident after I file the report? Or what if the company has further questions for me concerning my report?

When you file a report at the EthicsPoint Web site or through the EthicsPoint Call Center, you receive a unique user name and are asked to choose a password. You can return to the EthicsPoint system again either by Internet or telephone and access the original report to add more detail or answer questions posed by a company representative and add further information that will help resolve open issues. We strongly suggest that you return to the site in the time specified to answer company questions. You and the company now have entered into an “anonymous dialogue,” where situations are not only identified, but can also be resolved, no matter how complex.

Are these follow-ups on reports as secure as the first one?

All EthicsPoint correspondences are held in the same strict confidence as the initial report, continuing under the umbrella of anonymity.

Can I still file a report if I don't have access to the Internet?

You can file an EthicsPoint report from any computer that can access the Internet. You can file from home. Many public locations, including the public library, have Internet computers. If you don't have access to or are uncomfortable using a computer, you can call the EthicsPoint toll-free hotline, which is available 24 hours a day, 365 days a year.
