Message from Senior Management

Dear collaborators:

We form a very special company, created upon the initiative of the Development Banking System in the year of 2006, as a vehicle to promote the industry of private equity in Mexico; this has been quite a challenge and an opportunity.

As you already know, Corporación Mexicana de Inversiones de Capital, S.A. de C.V. and Administradora CMIC, S.A. de C.V., founded in the same year by the same shareholders, has been entrusted with the preparation of policies, controls, methodologies and systems to establish a Fund of Funds of private equity, which seeks to promote the industry of private equity and, at the same time, to maintain and increase the value of its shareholders' investment.

It is essential to assure that we have an excellent representation in all aspects, insofar that it is the basis for a long-term strategy and, without doubt, acting in ethical manner generates the confidence from shareholders and institutions.

We act appropriately when we make a reflection, measure consequences, become aware of facts, seek for advice and act with integrity. As members of Fondo de Fondos, we have a personal commitment to preserve and promote a culture of ethics and compliance.

I kindly invite you to work together so that we can achieve excellent results. Ethical values are essential to Fondo de Fondos, insofar that they define our legacy and our future.

Four years have elapsed since the first Code of Ethics and Conduct of the company was issued, and it is with great enthusiasm that I present this update to the Ethics and Conduct Code of Fondo de Fondos; and our staff, the members of the Board and Committees, fund managers and suppliers are kindly invited to observe the guidelines established in this document on an autonomous and daily basis.

Respectfully,

Mtro. Raúl Solís Wofowitz

Chairman of the Board of Directors

Dr. Felipe Vilá González

Chief Executive Officer

- ✓ Solidarity, a strong and persevering decision to advocate for the good of all of us.
- ✓ Subsidiarity, which holds that everything that somebody can do on its own or that can be carried out by a smaller organization, should not be done by a larger and more complex organization, unless the common good demands so.
