About EthicsPoint

What is EthicsPoint?

EthicsPoint is a comprehensive and confidential reporting tool created by NAVEX Global.

Reporting – General

May I report using either the Internet or the telephone?

Yes. With EthicsPoint, you have the ability to file a confidential, anonymous report via either the telephone or the Internet.

What type of situations should I report?

The EthicsPoint system is designed for employees to report any violation of our stated Code of Business Conduct and Ethics.

If I see a violation, shouldn't I just report it to my manager, legal, or human resources and let them deal with it?

When you observe some behavior that you believe violates our Code of Business Conduct and Ethics, we expect you to report it. Ideally, you should bring any concerns forward to your direct manager, or other member of our management team. We recognize, however, that there may be circumstances when you are not comfortable reporting the issue in this manner. It is for such circumstances that we have partnered with EthicsPoint. We would rather you report anonymously than keep the information to yourself.

Why should I report what I know? What's in it for me?

We all have the right to work in a positive environment and with that right comes the responsibility of acting in an ethical manner and letting the appropriate people know if someone is not acting appropriately. By working together, we can maintain a healthy and productive environment. Corporate misconduct can threaten the livelihood of an entire company.

Does management really want me to report?

We certainly do. In fact, we need you to report. You know what is going on in our company - both good and bad. You may have initial knowledge of an activity that may be cause for concern. Your reporting can minimize the potential negative impact on the company and our people.

Where do these reports go? Who can access them?

Reports are entered directly on the EthicsPoint secure server to prevent any possible breach in security. EthicsPoint makes these reports available only to specific individuals within the company who are charged with evaluating the report. Each of these report recipients has had training in keeping these reports in the utmost confidence.

Reporting - Security & Confidentiality

It is my understanding that any report I send from a company computer generates a server log that shows every web-site that my PC connects with, and won't this log identify me as a report originator?

EthicsPoint does not generate or maintain any internal connection logs with IP addresses, so no information linking your PC to EthicsPoint is available. If you feel uncomfortable making a report on your work PC, you have the option of using a PC outside our work environment (such as one located at an Internet café, at a friend's house, etc.) through the EthicsPoint secure website.

Can I file a report from home and still remain anonymous?

A report from home, a neighbor's computer, or any Internet portal will remain secure and anonymous. An Internet portal never identifies a visitor by screen name and the EthicsPoint system strips away Internet addresses so that anonymity is totally maintained. Plus, EthicsPoint is contractually committed not to pursue a reporter's identity.

Is the telephone toll-free hot line confidential and anonymoustoo?

Yes. You will be asked to provide the same information that you would provide in an Internet-based report and an interviewer will type your responses into the EthicsPoint Web site. These reports have the same security and confidentiality measures applied to them during delivery.

What if I want to be identified with my report?

There is a section in the report for identifying yourself, if you wish. Identifying yourself can help facilitate follow-up and investigation.

Tips & Best Practices

I am not sure if what I have observed or heard is a violation of company policy, or involves unethical conduct, but it just does not look right to me. What should I do?

File a report. EthicsPoint can help you prepare and file your report so it can be properly understood. We'd rather you report a situation that turns out to be harmless than let possible unethical behavior go unchecked because you weren't sure.

What if my boss or other managers are involved in a violation? Won't they get the report and start a cover-up?

The EthicsPoint system and report distribution are designed so that implicated parties are not notified or granted access to reports in which they have been named.

What if I remember something important about the incident after I file the report? Or what if the company has further questions for me concerning my report?

When you file a report at the EthicsPoint Web site or through the EthicsPoint Call Center, you receive a unique user name and are asked to choose a password. You can return to the EthicsPoint system again either by Internet or telephone and access the original report to add more detail or answer questions posed by a company representative and add further information that will help resolve open issues. We strongly suggest that you return to the site in the time specified to answer company questions. You and the company now have entered into an "anonymous dialogue," where situations are not only identified, but can also be resolved, no matter how complex.
