Message from the CEO of DocGo

DocGo is committed to providing exemplary service to our patients. It is our goal to maintain the highest level of integrity, ethics, transparency, and morale. This Code of Ethical Conduct (Code) is intended to be the blueprint to help us navigate through rules, expectations, culture, and ethical decision making. We aim to provide the utmost quality of care, maintain patient privacy, and work collaboratively with our business entities, partners, and government regulators. Commitment to this Code fosters the reputation of DocGo in our markets and ensures full compliance with all federal and state health care program requirements.

I urge you to review the Code, adapt the policies into your daily work life and be transparent, without fear of retaliation should you witness a potential problem or area of opportunity for improvement. In short, if you see something, say something. Our Code can serve as a resource when you need guidance on Compliance-related issues. All of us play an important role in sustaining these values and the quality of care that we provide for our patients.

A thriving Compliance Program requires active participation from everyone. Reporting Compliance concerns is mandatory. Please speak to your Manager, Human Resources, the Compliance Department, or use the Anonymous Hotline if you feel something is unethical or illegal in any of our business practices.

Thank you for your role in ensuring that DocGo continues to be a leader in the healthcare industry through our commitment to the highest ethical standards.

Sincerely,

A handwritten signature in black ink that reads "Lee Bienstock".
