Our Code of Excellence sets clear expectations for our shared commitment to ethics and integrity. It is intended to help each of us make the best decisions possible and provide an exceptional experience for every individual. It is essential to achieving our mission to improve health, inspire hope and save lives.

Our work matters. I am grateful for all you do and for your unwavering support in doing what's right for everyone, everywhere, every day.

Our Code of Excellence

- 1. We do the right thing.** We do the right thing no matter if anyone notices or is watching. This includes conducting ourselves in accordance with our values—compassion, collaboration, curiosity and courage—and complying with all laws and regulations governing our business. We acknowledge that it isn't always easy to do the right thing. If we are unsure of the right thing to do, we ask for help.
- 2. We make sure everyone has a voice.** We raise concerns and instances of actual or potential ethical or compliance issues. We do not allow retaliation against anyone seeking help or raising a concern in good faith.
- 3. We treat everyone with compassion, dignity and respect.** We will serve everyone in our communities, without regard to race, color, sex, national origin, handicap/disability, age, HIV status, marital status, sexual orientation, gender identity, gender expression, religious beliefs, sources of payment for care or other protected status or category. We work to create environments free of harassment, violence and intolerance.
- 4. We value diversity, equity and inclusion.** We embrace a diverse and inclusive organizational culture that fosters respect for all. At the same time, we acknowledge that inequities persist in our communities. We pledge to listen deeply and engage authentically with those impacted by systemic racism, so we can partner with others toward the goal of achieving health equity.
- 5. We maintain a healthy workplace.** We act in safe and healthy ways and do our jobs with clear minds.
- 6. We are good stewards of our resources.** These resources include our people, facilities, funding, information, technology, equipment and supplies. We use them responsibly, and ensure that others do, too. We share them or allow others access to them only for legitimate business purposes and with proper authorization.
- 7. We code and bill our services appropriately.** We strive to ensure and maintain complete and accurate documentation of medical services provided. We expect accurate coding from our provider partners. We report and return any overpayment once identified from a government health care program, commercial payer, or patient.
- 8. We are transparent with quality and pricing.** We give clear and accurate information as it relates to charges for the items and services we provide. We proactively share information about the quality of our care, the outcomes of our services, and the experiences of our patients and members. We attempt to answer questions and resolve disputes related to our services to the patient's, member's and payer's satisfaction.
- 9. We protect the confidentiality and privacy of our patients and members.** We collect information about a patient's and member's medical condition, history, medication and family illnesses to provide the best possible care and health plan services. We protect individuals' health information while allowing the flow of information needed to provide and promote high-quality health care.
- 10. We are honest, accurate and fair in our business relationships.** We provide truthful, accurate information to the public, news media and others who have an interest in our activities, including those conducting external audits, reviews and inspections. We follow our policies and principles of good business ethics pertaining to the exchange of gifts and business courtesies with vendors. We address potential conflicts of interest before they arise, and when they do arise, we manage them through disclosure and removing the individual(s) with the conflict from decision-making related to the interest or matter.

How can I report a concern?

You can report a concern in several ways. Our Integrity Helpline is available 24 hours a day, seven days a week. An outside company receives calls and online submissions. The compliance department receives the report and reviews for follow-up or investigation. All contacts are confidential, to the limit allowed by law. If you prefer, you can make an anonymous report. Providing as much information as possible will help us review the validity of the report and investigate any potential misconduct.
