

### **A Message From Our President & CEO**

As North America's leading specialty vehicles company, we've built our reputation on preparing for the road ahead. We've been building innovative products for decades and now, more than ever, we're positioned to take on new challenges and explore new technologies that will help shift the world forward, and our end markets into overdrive.

We're glad you're with us on this journey, and ask that you commit to our Code of Conduct along the way. It's important to us. It guides how we should act and explains what is expected of us as Shyft Group employees.

The Code of Conduct does not describe every difficult situation you may face. Instead, it provides overall guidance on conducting business honestly and ethically. We're relying on you to read and understand the Code. We're also relying on you to exercise good judgment. If you're unsure about the right decision or have concerns, ask for help!

We're committed to working with you to maintain the Shyft Group's highly regarded reputation well into the future. Please reach out with any questions you may have, and thank you in advance for your cooperation and commitment.

# INTRODUCTION

Our reputation is critical to our success and future growth. It provides the foundation for maintaining trust with one another, our business partners, our shareholders, and our communities. Our reputation is the cornerstone of our strong relationships.

Reputation takes a long time to build. But it can be damaged or destroyed very quickly once trust is broken. It is imperative that we safeguard our reputation.

The Shyft Group Code of Conduct helps us do this! The Code sets out our Core Values, which guide us in the way we conduct business. It also establishes standards of behavior expected of us in support of our Core Values.

Our Core Values .....	5
Decision Road Map.....	6
The Code Applies To You.....	7

## OUR CORE VALUES

Our Core Values are what we stand for. They are at the heart of our business. They guide our day-to-day behavior and help sustain our reputation and growth. They also guide our relationships with each other, our business partners, our shareholders, and the communities where we do business. We believe in these Core Values:

### Honesty and Integrity

The Shyft Group's road to success is paved with the honesty and integrity of our people. How we interact with team members, partners, customers, vendors, and others reflects directly on our company and who we are as people. We owe it to our shareholders, our brand, and ourselves to behave ethically, to be upfront with those we work with, and to be proud of what we're building together.

**Do what's right every time.**

### Trust

We must trust one another to do what's right, alert others when something is wrong, and push to continuously improve our product, process, and our company. Being trustworthy earns us the right to speak our minds and do what's best for the business, our customers, and our shareholders, without questioning our integrity.

**With trust comes empowerment.**

### Accountability

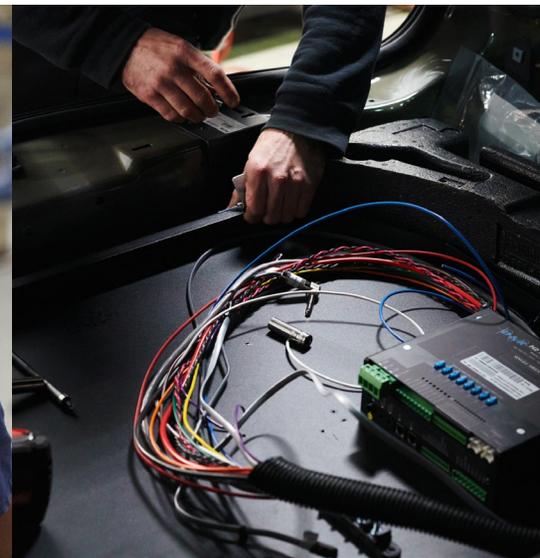

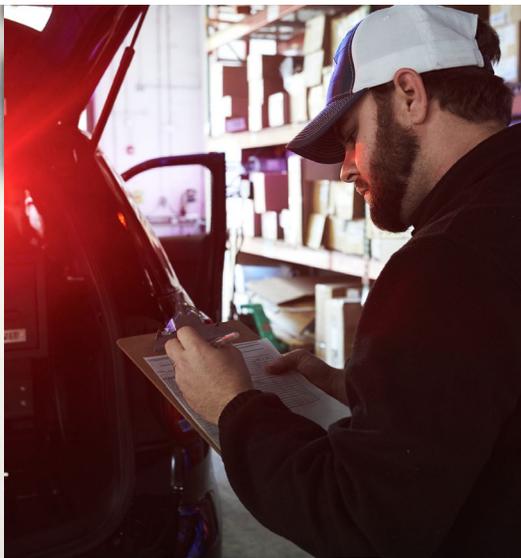

The road to a better Shyft Group runs through YOU. That means accepting responsibility for your actions, your performance and outcomes, and expecting the same from other team members. Passing the buck, ignoring problems, or turning a blind eye to issues or inconsistencies doesn't help you, co-workers, or our company.

**Own it.**

### Performance Excellence

The road to continuous improvement relies on individuals with specific roles that work together to make our end product and our company's path forward the best it can be. Always asking how we can make the performance of our department, our lines, and ourselves more effective. Let's work every day to ensure that The Shyft Group delivers products that pave the way to better rescues, better adventures, and better efficiencies for those we serve.

**Improving never ends.**

# DECISION ROAD MAP

We face situations where the right choice isn't always clear. We rely on you to align your decision with our Core Values and the Code. We also rely on you to use good judgment.

This Decision Road Map provides some simple questions to help you navigate difficult decisions.

Is the activity legal?

Does it feel right?  
What would your Supervisor or family say if you discussed it with them?

Is the activity in line with the Code?

If you answered "yes" to all three questions, then it's probably okay to move forward. If you are unsure, ask for guidance. If you answered "no" to any of the three questions, then **STOP. Don't do it. Ask for help.**

**Watch for warnings signs.  
Reevaluate the situation if you hear:**

"We'll do whatever it takes."

"That's how we've always done it, and there's never been a problem. No one's been fired."

"Don't worry about it. No one will know."

"We'll find someone else to do it for us. We can work around it."

## THE CODE APPLIES TO YOU

The Code applies to all of us, no matter what your job is or where you are located. Everybody who works for a Shyft Group company is required to follow the Code, including employees, officers, and board members. We also expect third parties, including our suppliers, consultants, agents, and other business partners to act consistent with the values of our Code when doing business with the Shyft Group.

### Following The Code

We all need to follow the Code. If you don't, you may be disciplined or fired.

All new employees must be given the Code and asked to read and acknowledge it as part of their introduction to the Shyft Group. Current employees will be regularly required to acknowledge it again. Commitment to the Code is ongoing.

The Code doesn't create an employment contract between you and the Shyft Group. It also doesn't create any legal rights. Rather, it's a guideline to conducting business honestly and ethically.

Exceptions to this Code are rare, and, if granted, must be made in a manner permitted by law.

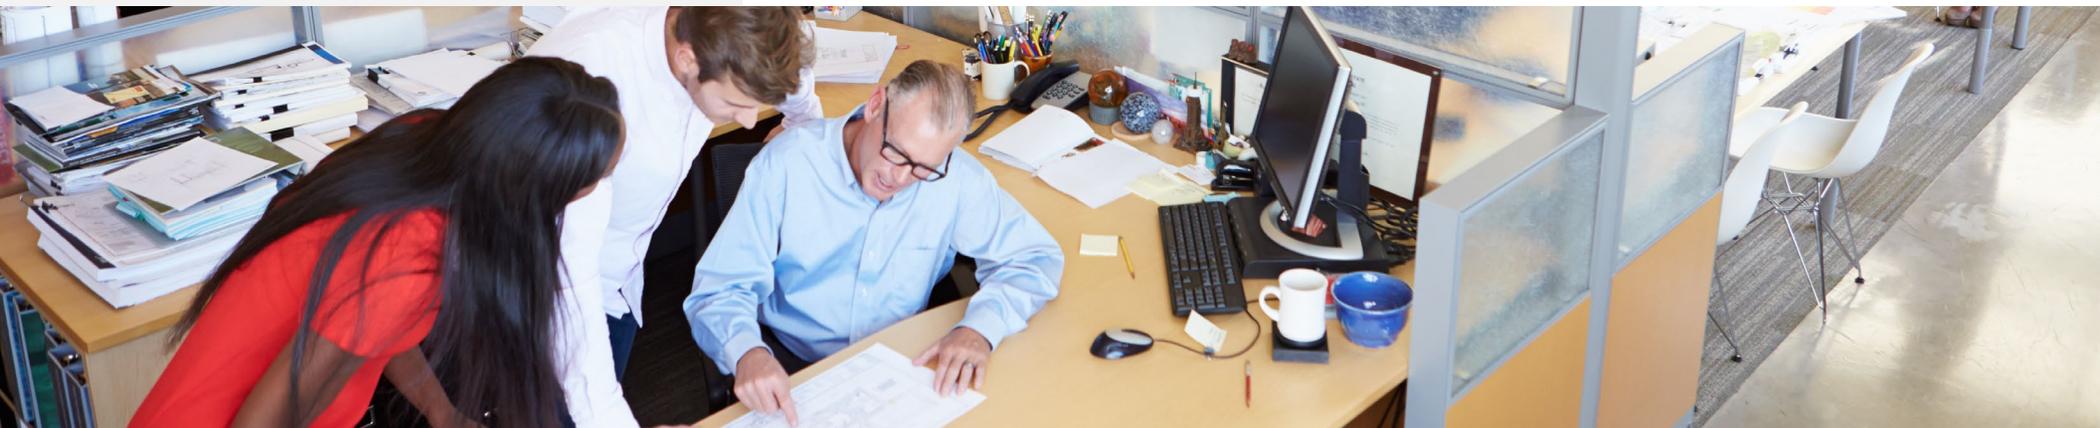

### Local Laws & Regulations

We conduct business in many different locations, each with their own laws and regulations. There are a lot of laws that apply to us. We are committed to complying with all relevant local laws and regulations in the areas where we conduct business.

If the Code conflicts with local law, then the higher standard should always be followed. If in doubt, seek advice from the Shyft Group Legal Department.

### Supporting Policies

The principles in the Code are supported by our Employee Handbook and more detailed Policies. These supporting documents also guide employees and our business.

## WHERE TO GO FOR HELP

The Code of Conduct provides guidance for conducting business honestly and ethically. However, you may face difficult situations that aren't fully described in the Code. We want you to exercise good judgment. If you are unsure about the right path, we want you to ask for help!

**We want you to feel comfortable asking questions and raising concerns. Here are some resources that are available to you:**

### Your Supervisor

Your Supervisor may be able to resolve your concern quickly. If you don't feel comfortable going to your Supervisor, then ...

### Human Resources

Contact your local Human Resources team. They are here to help you! They can answer employee questions and address employee concerns. If you are unwilling to speak with Human Resources, consider ...

### Local Leadership

Speak with the Plant Manager or another leader at your location. They are in a position to address your concerns, or escalate them, if needed.

**If you have tried these resources, and you still have concerns, or if you feel like you are unable to raise your concerns at the local business level, you can contact:**

### Shyft Group Legal Department

The Legal Department can help address concerns or provide guidance, especially when it comes to applicable laws, or illegal or unethical conduct. To reach the Legal Department, you can send an email to [shyftlegal@theshyftgroup.com](mailto:shyftlegal@theshyftgroup.com).

## YOUR COMMITMENT TO THE CODE

The Code is really important. It guides us. It tells us what is expected of us.

You must read the Code. We want you to understand it. If you are unclear, ask questions to clear up your concerns and ensure that you understand the Code. Talk to your Supervisor or Human Resources about it. You will then be asked to acknowledge the Code and agree to follow it.

### If you are a Supervisor, or other leader in the Shyft Group, we want you to:

- Lead by example.
- Provide a strong sense of direction to our employees.
  - Coach your teams and provide constructive feedback.
  - Recognize your teams and their accomplishments.
- Support the right judgment calls.
  - Provide advice and support to your team members and colleagues when they are faced with difficult decisions.

- Help create an environment of trust where people feel comfortable raising concerns and challenging behavior that doesn't seem right.
- Ensure that your team has access to the Code and that they understand the behaviors required by it.
- Discuss the Code and reinforce the importance of it and our Core Values.

## OUR PEOPLE

Across our workforce, our people lead today’s markets with innovation, ingenuity, and a dedication to quality. Our people are the key to our success.

We can only lead tomorrow’s markets if we encourage our people to reach their full potential, foster collaboration, and celebrate both individual and team achievements. We do this in a safe, fair, and respectful workplace that reflects the diverse communities in which we work.

## SPEAKING UP!

### The Right Direction

We believe in Speaking Up when we see behavior that is wrong.

### What Drives Us

We support a culture in which our people feel comfortable speaking up when they see misconduct, even if that means challenging the status quo.

We want all employees to feel able to ask questions or raise concerns about behavior that is inconsistent with the Code. When you raise concerns, we will listen, investigate, and address the concerns appropriately. You are able to raise concerns in good faith without fear of retaliation or disciplinary action.

### Investigation

- If you raise a concern about illegal or unethical conduct, it will be investigated.
- We will take the appropriate action based on the findings of the investigation.
- Although we will do our best to maintain confidentiality, the nature of the investigation may reveal details about the concern raised.
- We expect all employees to cooperate with investigations and answer questions completely and honestly.

### No Retaliation

- No one will be punished or disciplined for making a disclosure in good faith.
- We will not tolerate retaliation against someone who has raised a concern in good faith or cooperated with an investigation. If you retaliate, you could be fired.
