About EthicsPoint

What is EthicsPoint?

EthicsPoint is a comprehensive and confidential reporting tool created by NAVEX that enables society leadership and members to work together to address harassment, abuse, and other misconduct in our society while cultivating a positive environment.

Why do we need a system like EthicsPoint?

- Our members are important to us. By creating open channels of communication, we promote a positive environment and maximize scientific exchange.
- An effective reporting system augments our other efforts to foster a culture of integrity and ethical decision-making.

Reporting – General

May I report using either the Internet or the telephone?

Yes. EthicsPoint enables you to file a confidential, anonymous report via either the telephone or the Internet.

What types of situations should I report?

The EthicsPoint system allows our membership to report any violation of our stated Code of Conduct, or any other concern you may have.

If I see a violation, shouldn't I just report it to the board and let them deal with it?

When you observe some behavior that you believe violates our code of conduct, we expect you to report it. We recognize, however, that there may be circumstances when you are not comfortable reporting the issue directly to anyone. It is for such circumstances that we have partnered with NAVEX. We would rather you report anonymously than keep the information to yourself.

Why should I report what I know? What's in it for me?

We all have the right to interact in a positive environment and with that right comes the responsibility of acting in an ethical manner and letting the appropriate people know if someone is not acting appropriately. By working together, we can maintain a healthy and productive environment.

Does the board really want me to report?

We certainly do. In fact, we *need* you to report. You know what is going on in our society - both good and bad. You may have initial knowledge of an activity that may be cause for concern. Your reporting can minimize the potential negative impact on the society and the broader membership. Also, offering positive input may help identify issues that can improve our culture.

Where do these reports go? Who can access them?

Reports are entered directly on the EthicsPoint secure server. NAVEX makes these reports available only to specific individuals within the society who are charged with evaluating the report, based on the type of violation and location of the incident. Each of these report recipients has had training in keeping these reports in the utmost confidence.

Isn't this system just an example of someone watching over me?

No. EthicsPoint is a positive aspect of our overall philosophy that allows us to ensure a safe, secure and ethical environment. You are encouraged to seek guidance on ethical dilemmas, provide positive suggestions, or communicate a concern. Effective communication is critical and this is a great tool to enhance that communication.

We have carefully chosen the best reporting tool to maintain a positive reporting environment.

Reporting Security & Confidentiality

It is my understanding that any report I send from a company computer generates a server log that shows every website that my PC connects with. Won't this log identify me as the report originator?

NAVEX does not generate or maintain any internal connection logs with IP addresses, so no information linking your PC to EthicsPoint is available.

Can I file a report from home and still remain anonymous?

A report from home, a neighbor's computer, or any Internet portal will remain secure and anonymous. An Internet portal never identifies a visitor by screen name and the EthicsPoint system strips away Internet addresses so that anonymity is totally maintained.

I am concerned that the information I provide EthicsPoint will ultimately reveal my identity. How can you assure me that will not happen?

The EthicsPoint system protects your anonymity. However, if you wish to remain anonymous, you - as a reporting party - need to ensure that the body of the report does not reveal your identity by accident. For example, "From my hotel room next to Jan Smith..." or "In my 23 years as a member...".

Is the telephone toll-free hot line confidential and anonymous too?

Yes. You will be asked to provide the same information that you would provide in an Internet-based report and an interviewer will type your responses into the EthicsPoint Web site. These reports have the same security and confidentiality measures applied to them during delivery.

What if I want to be identified with my report?

There is a section in the report to identify yourself, if you wish.

Tips & Best Practices

I am aware of some individuals acting unethically, but it doesn't affect me. Why should I bother reporting it?

NCM promotes ethical behavior. All unethical conduct, at any level, ultimately hurts the society and all members, including you. You only have to consider what happened in recent corporate scandals to see the disastrous effects that a lapse in ethics can have on an otherwise healthy organization. If you know of any incidents of misconduct or ethical violations, consider it your duty to yourself and your fellow society members to report it.

I am not sure if what I have observed or heard is a violation of policy, or involves unethical conduct, but it just does not look right to me. What should I do?

File a report. NAVEX can help you prepare and file your report so it can be properly understood. We'd rather you report a situation that turns out to be harmless than let possible unethical behavior go unchecked.

What if my supervisor or other society members are involved in a violation? Won't they get the report and start a cover-up?

The EthicsPoint system and report distribution ensure that implicated parties are not notified or granted access to reports in which they have been named.

What if I remember something important about the incident after I file the report? Or what if the investigators have further questions for me concerning my report?

When you file a report at the EthicsPoint Web site or through the EthicsPoint Call Center, you receive a unique, randomized number called a "Report Key" and are asked to choose a password. You can return to the EthicsPoint system again either by Internet or telephone and access the original report to add more detail or answer questions posed by an investigator. We strongly suggest that you return to the site in the time specified to answer questions. You now have entered into an "anonymous dialogue," where situations are not only identified, but can also be resolved, no matter how complex.

Are these follow-ups on reports as secure as the first one?

All EthicsPoint correspondences are held in the same strict confidence as the initial report, continuing under the umbrella of anonymity.

What if I lose my Report Key or forget the Password I created?

To ensure that security and confidentiality is maintained, if you lose your report key or password, you will need to file a new report. Mention in the new report that it is related to a report or question you previously submitted.

Can I still file a report if I don't have access to the Internet?

You can file an EthicsPoint report from any computer that can access the Internet. You can file from home. Many public locations, including the public library, have Internet computers. If you don't have access to or are uncomfortable using a computer, you can call the EthicsPoint toll-free hotline, which is available 24 hours a day, 365 days a year.
